The Didsbury Pioneer

Hallowe'en Celebrated

Hallowe'en as celebrated in Didsbury on Wednesday evening last is worthy of mention. No damage was done in town to speak of. A number of the younger generation were dressed up for the occasion, going their usual rounds in search of apples and candy. Eight o'clock found the majority at the Opera House where Mr. Sharp had planned a special show for their benefit, at a nominal admission. Great credit is due Mr. Sharp in his endeavor to provide the younger generation with a special entertainment in the theatre for their benefit. This took many children off the streets and the results of mischievous pranks were much less in evidence.

The Million Dollar Novelty Dance went off with a "bang." The hall was appropriately decorated for the occasion. The prize for the lady with the greatest number of semolians was won by Miss Nita Wilson.

LOCAL & GENERAL

Mr. Roger Barrett was a business visitor to Calgary on Tuesday.

Costumes for the I.O.D.E. Masquerade Ball, Nov. 9th, can be procured from Gray Sharp Phone 11. 46-1c

Mr. Lloyd and Willard Ryckman motored from Calgary on Wednesday last to attend the Million Dollar dance.

The October examination results of the local public school will appear in next week's issue of the Pioneer.

Mr. and Mrs. Dan Dippel accompanied by Mr. and Mrs. Allen Hunsperger motored to High River the E. P. Ranch and Turner Valley last week.

Misses R. Liesemer, V. Sexsmith and A. Huget and Messrs E. Evans and R. Ford left today for Olds to attend the teachers' annual convention of the Olds' inspectorate.

Among the list of contestants appearing in the Calgary Herald Monday for the Oratorical contest is the name of Dorothy Ranton. This contest is being sponsored by the Calgary Herald and the Edmonton Journal.

The Family Herald and Weekly Star of Montreal with its wonderful improvements is recognized as the greatest money maker for farmers in Canada, while its magazine section is a gem unrivaled.

Rev. A. E. Hayes represented the Red Deer Presbytery at a luncheon given Dr. Laird, general treasurer of the United Church. The meeting was in behalf of Missions.

The Westcott W.L. met at the home of Mrs. Earl Klinek on October 31st. The outstanding feature of the meeting was a contest in home made bread, the first prize being won by Mrs. D. Klinek and the second by Mrs. R. Webster. The next meeting will be held at the home of Mrs. Harry Steckly on Nov. 28th at 2 o'clock.

Mr. O. W. Hembling, a former resident and business man of Didsbury, now of Oyama, B.C., stopped off in town Friday last renewing old acquaintances. Mr. Hembling has just completed a tour of the various prairie cities in the interests of the B.C. Committee of Fruit Direction of which he is a member.

Plans for next year's program of co-operative activities under the auspices of the Wheat Board Surplus Fund trustees were discussed at a meeting held recently in Edmonton. Satisfaction was expressed with the results of the Alberta Institute of Co-operation held during the past season and it is proposed that during the summer of 1929 a number of smaller meetings of a similar nature be held at various points in the province.

Irvin S. Cobb says that "when a good duck hunter dies he goes to the Saskatchewan marches. In these stubble fields and along these meandering sloughs the party of which I am a member have had such sport as we did not think could be found on the continent of North America." Mr. Cobb was a duck hunting guest of the Canadian Pacific Railway at Jansen, Sask. On his way back he stopped over at High River where he is seen being fitted into chaps on the Frazier Hunt ranch.

Coming Events

The dance at Community Hall which was to have been held Friday, Nov. 9th has been postponed until Friday, Nov. 16th. 46-1p

Mons Chapter I.O.D.E. will hold their annual Masquerade Ball, Friday, November 9th. 46-3c

The Ladies' Aid of Knox United Church will serve a chicken dinner on Armistice night, Monday, Nov. 12, in the Didsbury Opera House, from 6 to 8 o'clock. Hon. Alfred Speakman, M.P., of Red Deer will be the speaker for the evening. Subject: "Canada and Canadians." There will also be a musical program. Adults 50c, Children 25c.

The St. Eloi Women's Institute will hold a sale of work followed by

a dance at the Elkton School House on Friday, Nov. 23. 46-2p

The monthly meeting of the Didsbury Local U.F.A. will be held in the Live Stock Pool Office on Friday, Nov. 16th at 2 p.m. All members are requested to be present. Fred Moyle, Sec.-Treas. 46-2c

A Thanksgiving supper has been arranged by the Westdale Ladies' Aid on Monday, Nov. 12 from 7:30 to 9 at the Young People's Hall. Singing and music at the church after the supper. 46-1c

Mr. J. Mjolsness, who for 17 years has been the town electrician, left last week to take up his new duties with the Calgary Power Co., at Red Deer. Mrs. Mjolsness and family moved to Red Deer two weeks ago. The Pioneer joins with their many friends in wishing them success in their new home.

The Menace of Communism

The Sixth International Communist Congress held in Moscow this year declared its avowed policy "to concentrate Communist propaganda on the young people of the world," not on the young people of Russia, or even of Europe, but of the world.

Has that declaration any meaning for Canada? Is it one that the people of Canada need pay any attention to, or in regard to which they should take action?

Communism thrives where there is oppression, injustice, extreme poverty, lack of employment resulting in enforced idleness, and, inevitably arising from these conditions, general discontent. Satan still finds mischief for idle hands to do, and there is nothing quite so mischievous in the world today as Communism and its many pernicious doctrines.

Communism, therefore, found fertile ground in Russia owing to the centuries old oppressions and injustices of the old Tsarist regime, during which the most abject poverty and ignorance continued among the masses of the people alongside an aristocracy rolling in wealth and indulging in all forms of extravagance and luxury. The added sufferings, sacrifices and horrors of the Great War were all that was necessary to set the country afire and provide the Communists with the opportunity they had long been awaiting.

In Canada, unlike Russia, there is no oppression of the people; injustice is not tolerated, and has only to be exposed to be remedied; cases of extreme poverty are rare indeed, and, when found, sympathetic governments, organizations and people respond to the call of need; work, as a rule, is available to all who are willing to work, and seasons of unemployment are but temporary and not a general thing; the overwhelming mass of the people are happy and contended. The soil of Canada is, therefore, not fertile ground for cultivation by the Communist agitator.

Nevertheless, Canada is not being ignored by the Communists of Russia in their visionary attempt to grasp world power through the overthrow of all institutions of law and order, all religions, the destruction of all present forms of government, and the confiscation of all property and other rights of individuals. The Communist will never be satisfied until he brings about a reign of terror and a condition of chaos in all countries similar to that created by him in Russia and in certain portions of China. Wherever there is trouble, whether political, social or economic, there the Communist sees his opportunity, and in the past Canada has not been free from manifestations of Communist intrigue and activity. And the Moscow authorities stand ever ready to finance and otherwise support all such efforts.

The Communist leaders realize, however, that they cannot make much headway with the adult populations of Canada, the United States, and the self-governing Dominions of the British Commonwealth. Hence their openly avowed intention to concentrate their propagandist activities on "the young people of the world."

And therein lies the danger to Canada. If in their youth while their minds are plastic and open to receive impressions, and before their characters are formed, the boys and girls of Canada, or of any country, can be inoculated with the virus of Communist disbelief in God and religion, Communist repudiation of all accepted ideas of morality as merely man-made restrictions on individual liberty, Communist rebellion against all constitutional systems of government and courts of law and justice, and Communist doctrine that there is nothing good but everything that is bad in all countries except Russia where, for the time being, Communism holds the whip hand and wields a lash over everybody who dares to voice even the mildest criticism of its methods,—if, we say, the youth of Canada can be infected with such ideas, then the very foundations of all that we revere and hold dear in Canada today are being very seriously undermined.

Communism is conducting such a campaign in Canada at the present time. The orders of the International Congress, at Moscow, are being carried out to the letter. Communist day schools and Soviet Sunday schools are being conducted, the most pernicious literature for children is being circulated, and every conceivable plan to attract the interest of the children is adopted and followed. In an age when there is a youthful tendency to scoff at religion as old-fashioned, God, the church, and all religion is openly as well as covertly attacked. Modern youth is encouraged to "go the limit" in throwing off the conventions and restraints of the past, and are ridiculed if they hesitate to do so. The sanctity of the home is laughed at, and parental, as well as all other forms of authority repudiated as forms of slavery and a denial of the rights of youth.

In setting their faces sternly against this disruptive thing, let the Canadian people see to it that no oppression, no injustice, no suffering through poverty or because of lack of work, is allowed anywhere in the Dominion. Let the churches forget their minor differences in doctrine or in forms of worship, and, instead of fighting each, unite their forces in order that effective warfare may be waged on a system which, if it is not destroyed, will ultimately destroy all churches and all religion, and, in destroying these great bulwarks, destroy also the home and the state, and lead to the damnation of the individual.

When Pain Comes

What many people call indigestion, very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention.

One spoonful of this harmless,

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methoates when once you learn the efficiency of this. Go get a small bottle to try.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Canadian Arctic Expedition

Well On the Way To Frozen North, Equipped With Radio

An example of the use of Canadian products by the Canadian Government in important scientific and exploration work comes with report of the departure from Ottawa of the Canadian Arctic Expedition, organized by the Northwest and Yukon Branch of the Canadian Department of the Interior.

The expedition was under the direction of Major L. T. Burwash, well known Canadian Governmental explorer, who has spent much time in the far North. Press reports this summer indicated that Major Burwash was off on one of his solitary jaunts, but the general Canadian Arctic Expedition, according to information from Toronto, left that city in three parties.

All three parties were equipped with Eveready radio "B" batteries on the sets supplied for the expedition by the Department of Marine and Fisheries. Word has reached headquarters of the Canadian National Carbon Company that all branches of this Department are using Canadian National Carbon Company products.

Reports this summer on Major Burwash's activities indicate he was engaged in exploration of unusual scientific interest which promises to yield also an abundance of romance. He planned a jaunt of 5,000 miles by railroad, boat and dog team lading him at the magnetic pole, the trip being planned partly as a hunt for relics of the Arctic expedition of Sir John Franklin which ended in disaster in 1845.

Rumor sifted back occasionally from the frozen North has told that one of Franklin's two ships, the Erebus and the Terror, may be sighted in the Arctic Ocean near King William Land or Boothia Peninsula. If the ship can be found the Canadian Government will be enriched by the recovery of old relics and records believed to be aboard her.

Major Burwash also planned to investigate conditions among the Eskimos north of Mackenzie and Keewatin and the proposed tractor-train route from Wagner Bay on the West Coast of Hudson Bay to Cockburn Bay south of King William Land.

One of the primary purposes for the expedition assigned by press reports is to determine the westward shift of the magnetic pole so that mariners' charts may be corrected.

WOMEN OF MIDDLE AGE

Need Rich, Red Blood To Maintain Good Health

After passing the age of forty every woman has reason to grow anxious about her health. This time of trial, with its attacks of faintness and fits of depression, its often violent headaches and back pains is rightly dreaded by women; but if reasonable steps are taken to safeguard the health, no serious ill-effects will arise. At this turning point in life Dr. Williams' Pink Pills have given a helping hand to thousands of suffering women who were fighting a hopeless battle against poor health and waning strength.

The very best help for any woman of middle age is the health help given by Dr. Williams' Pink Pills. These pills reinforce the blood supply, enriching and purifying it. In doing this they nourish the starved and overtaxed nerves and give new strength and vitality to the whole system. By this natural process Dr. Williams' Pink Pills completely dispel all pains and weakness, and a better, happier condition of health and spirits arises.

Every woman of middle age should take advantage now of the wonderful health-help of Dr. Williams' Pink Pills. They are sold by all medicine dealers or will be sent by mail at 50 cents a box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Customer: "How long will this pair of patent leather shoes last?"

Requisite On the Farm.—Every farmer and stock raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

The only thing some people keep up is uppishness.

All Night With Asthma. Everyone knows how attacks of asthma often keep their victims awake the whole night long. Morning finds him wholly unfit for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

I heard awhile ago, of an elderly mother being asked what she would do if she had her life to live again, and her answer is worth passing on: "I would scold less and praise more."

Mount Robson

The summit of Robson pass is a broad gravel flat extending between Adolphus Lake on the Alberta side and Berg Lake in British Columbia, the two lakes lying about a mile apart. In no other pass in the Rockies does one mountain so dominate the entire landscape as does Mount Robson. Its enormous mass (altitude, 12,972 feet), towers 7,532 feet above the summit of the pass at such close range as to literally overshadow it.

WILL GIVE AID TO SETTLERS FROM THE BRITISH ISLES

Ottawa.—Important announcements in regard to an increase in British assisted immigration are almost certain to follow the tour of Hon. Robert Forke, Minister of Immigration, through the western provinces.

Mr. Forke has just returned and in the course of this trip interviewed the Premiers of Manitoba, Saskatchewan, Alberta and British Columbia, in their respective capitals. He went thoroughly into the various policies now being advanced by his department singly and in co-operation with the British Government, and, wherever possible, invited their active assistance.

The kind of assistance which the provinces may give is various. They may assist the Federal department in checking up the bona fides of persons within their boundaries who apply to Ottawa for aid in bringing their families out from Britain, or they may enter actively into a scheme of settlement and bear a part of the financial burden.

Mr. Forke had little to say of his trip, except that all the Premiers had been much interested in immigration problems and had promised to give the most careful consideration to the many suggestions which he had made.

There is ample time for such consideration since all the settlement work is done in the spring and early summer months, and, provided the Federal Department knows now much assistance it may expect from a province by the new year, the task of arranging for the movement of the settlers can be performed.

It would appear that the provinces were more interested in boy settlement than in the policies for older persons, and it is in this field that important announcements may be made.

Mr. Forke, it is understood, put forward a proposal whereby all boys brought out and placed on provincial training farms should be assisted to start up as farmers, provided they could save \$500 out of their earnings. In this event the British and Canadian governments would put up \$2,250, and would ask the provinces to advance \$250 which, coupled with the boys' savings, would make a fund of \$3,000 which is considered to be ample to begin farming.

It is probable that the response of the provinces to this scheme will be enthusiastic and that a very big movement of boys will be inaugurated next year.

Serious Famine In Russia

Mobs In Moscow Are Openly Denouncing the Government

London, Eng.—Soviet Russia is in the throes of a famine which is reaching serious proportions, according to reports from Helsingfors and Riga received by the Exchange Telegraph Company here.

Mounted police are patrolling Moscow and dispersing near-violent mobs whose leaders openly denounce the government, the Helsingfors report stated.

Foreign legations in Moscow are perturbed over the seriousness of the situation, although some, it is said, are disposed to welcome it because it affords them a legitimate reason for leaving.

In Leningrad similar scenes were enacted, according to the Riga report. There 750 women and children, after waiting in a bread line all night, were given apples. Angered, they used the apples to bombard the windows of food stores and threatened to lynch the food distributors. A large number were arrested and later released.

Spanish Royalty In London

London, Eng.—Queen Victoria of Spain, and her daughters, the Infantas Beatrix and Maria Christina, arrived here and were met at Victoria station by the King and Queen. The royal party will be the guests of Queen Victoria's mother, the Princess Beatrice, widow of Prince Henry of Battenberg.

Saskatchewan Leads In Grain Shipments

Peak Of Movement Passed In First Three Months Of Crop Year

Winnipeg.—"Fully 65 per cent. of the crop has been marketed, since estimates have run around 530,000,000 bushels, and the railways have received 304 million bushels to date," is the report of J. G. Sutherland, superintendent of transportation for the Canadian Pacific.

"Saskatchewan is in the lead with 86,376,165 bushels dumped into elevator bins on Canadian Pacific lines, 79,073,723 bushels being wheat.

Manitoba has 35,144,225 bushels of all grains, including 19,530,015 bushels of wheat.

Alberta's marketings to date are 56,958,306 bushels all grains, 53,192,560 of which are wheat.

With such figures as proof, Mr. Sutherland holds the opinion that the peak of the movement has been passed in these first three months of the crop year.

Newfoundland Elections

Latest Returns Show That Government Has Been Defeated

St. John's, Nfd.—The opposition party of Sir Richard Squires overthrew the government of Hon. F. C. Alderdice in the general elections it became known when the results from twenty-nine of the thirty-seven districts had been received.

The election of the opposition candidates in St. John's City West and one opposition member in Burin West was conceded in the latest returns, while two seats in St. John's City East, and one in Burin East, were conceded to the government.

The opposition party has now secured twenty-three of a total of forty seats and nine government supporters have been returned.

Both Sir Richard Squires and Hon. F. C. Alderdice were elected. Sir Richard ran in Humber while Premier Alderdice contested St. John's City East.

Held Lucky Ticket

Quebec Bank Clerk Wins \$35,000 On Handicap

Quebec.—Fred G. Moore, 18, a clerk in the employ of the Imperial Bank here, won the first prize of the Army and Navy Veterans' pool on the Cambridgeshire Handicap. His prize will amount to about \$35,000. He drew Palais Royal II, winner of the race.

Fred Graham, Pontypool, Ont., who drew Baytown in the pool, will receive about \$11,800 as second prize.

E. A. McLatchey, New Glasgow, N.S., holds the ticket on Insight II, placing third. McLatchey will get \$5,000, the amount of the third prize.

Remain In Canada

5,000 British Harvesters Still Remaining In Canada

Ottawa.—With harvesting operations completed in the west and with 5,000 British harvesters still remaining in Canada, it is probable that the majority will become permanently established, department of immigration officials stated today. Reports from steamship companies to the department indicate that approximately 3,500 have returned to the British Isles.

From the fact that very few of the harvesters have applied at government employment bureau officials of the labor department believe that in the majority of cases they have found permanent work on western farms.

Eliminating Crow Pest

Campaign In Saskatchewan This Year Was Highly Successful

Regina.—The crow and magpie population of the province has been decreased by more than 1,000,000 as a result of the activities of 4,230 contestants for the 1,500 prizes offered by the Provincial Department of Railways, Labor and Industries in the 1928 crow campaign, according to the report in the Public Service monthly issued for last month.

"The success of the competition may be gauged by the results which show that 465,953 legs, and 681,716 eggs were collected. Actually, therefore, the enemy suffered a total loss of 914,692 before hostilities closed, September 1."

IMPORTANT ANNOUNCEMENT

Dr. Henry Marshall Tory, president of the national research council of Canada, who forecasts that at a gathering of bacteriologists in Ottawa, in the early winter an important announcement will be made concerning mankind's age-long fight against tuberculosis in animals, one of the deadliest scourges known, and one generally conceded the cause of a great deal of tuberculosis in human beings.

Brilliant Meteoric Display Predicted

Shooting Stars Will Be Seen From November 10 To 17

Montreal.—Meteoric displays of striking brightness are predicted to occur for a period lasting from Nov. 10 to 17 inclusive, according to an announcement from Harvard College University, received at McGill, by Prof. A. Vibert Douglas, lecturer in physics and secretary of the Montreal centre of the Royal Astronomical Society of Canada.

These displays, commonly known as shooting stars, will be seen in the northern sky south of the constellation of the Great Bear, better known as the Dipper. The shooting stars will be best observed after midnight until four o'clock in the morning, and will be seen as bright flashes across the sky.

Receives Prize For Research

London, Eng.—F. C. Banting, in receiving the Cameron prize for research at Edinburgh University, told how he discovered insulin. He was in London, Ont., when he read an article which so affected him he could not sleep that night and at two o'clock in the morning he was able to crystallize his ideas which led to his successful experiments.

Famine Stalks In China

Babies Being Killed On Account Of Lack Of Food

Shanghai, China.—The China international famine relief is being flooded with appeals from the stricken districts, particularly in Shansi, where it is declared, "babies are being killed because there is nothing to feed them with and children are being sold for a mere song."

Thousands of persons are said to be living on the bark and leaves of trees. In addition to Shansi the famine includes districts in Kiangsi, Suyuan, Hupeh, Hunan and Honan.

A magistrate of Yang Hsien in a letter estimates that there are 200,000 famine sufferers, owing to the drought and the devastations of the "Red Spears" a guerrilla organization. The situation in Shansi, the magistrate declares, is unprecedented, children being sold openly in the market by parents eager for cash. In Hunan thousands are on the verge of starvation, due to the banditry, communist uprisings, the Red Spears and drought.

Contractors Supply Stilts For Workmen

Innovation Of Toronto Firm To Eliminate Costly Scaffolding

Toronto.—As an innovation in the building trade, a firm of Toronto contractors provided six-foot stilts for their workmen. The plan was to do away with costly scaffolding.

Surprised and indignant at the plan, two workmen refused to don the stilts and reported to officials of the United Brotherhood of Carpenters and Joiners that they lost their jobs as a result.

William Varley, secretary of the Building Trades Council, is investigating to discover whether the use of stilts would be a contravention of city or provincial statutes.

Cities May Have Own Aerodrome

London, Eng.—An aerodrome in every city in Britain is the program put forward by the air ministry. Realization of the program depends on the city councils finding the money and therefore it will not be immediate. Manchester and Nottingham have already purchased land for aerodromes and Leeds, Hull and Liverpool are expected soon to follow their example.

Militia Officers Committed

Hamilton, Ont.—Three officers of the Third Canadian Machine Gun Battalion, one of whom is alleged to have drawn his sword on a police officer, were committed for trial by Magistrate Jelfs, on charges of assaulting two police officers who arrested them at the Thistle Club.

GRAF ZEPPELIN LANDS SAFELY IN HOME PORT

Friedrichshafen, Germany.—Completing the first round-trip commercial trans-Atlantic flight, the Graf Zeppelin landed at the aerodrome here with passengers and mail from America.

The airship, coming from Lakehurst, N.J., made the fastest crossing of the Atlantic by a lighter-than-air machine, covering a distance of 4,000 miles.

Since leaving Friedrichshafen on the morning of October 11, the Graf Zeppelin had flown approximately 10,000 miles. Going by the southern route on the westward flight, she flew 6,000 miles in 111 hours and 38 minutes.

The Graf Zeppelin arrived over her home port just 63 hours and 56 minutes from the start of her flight.

The airship thus established a new record for eastward flight by a dirigible across the Atlantic. The British dirigible R-34, in 1919, made the only previous eastward flight from Roosevelt Field to England in 75 hours.

It was revealed that the Zeppelin encountered heavy storms while flying over central France forcing Dr. Eckener to alter his course considerably, missing Paris. The speed also was reduced to less than 50 miles an hour.

With the approach of the dirigible the population of the town, swelled many times its normal size, was aroused by volleys of saluting shots. The people rushed pell-mell to the aerodrome, where the crews of the Zeppelin works were already assembled at the hangar. It was raining but there was no wind.

The airship, after allowing the cheering thousands a brief glimpse of her great form, rapidly passed out of sight and then reappeared a little later over Lake Constance. Throughout the town the church bells were ringing frantically and a cannonade of saluting shots was being fired constantly. Numerous searchlights played upon the silvery sides of the dirigible as it passed over the town.

Alberta Sheep Breeders

Officers Are Elected At Annual Meeting Held In Calgary

Calgary.—Officers elected at the annual meeting of the Alberta Sheep Breeders' Association, held in Calgary, were:

President, John Wilson; vice-president, William Hudson, of Kathryn; second vice-president, Alex. S. McDougall, Champion; directors, W. L. Carlyle, Calgary; M. McK. Andrews, Dewinton; John Ramsay, Simon's Valley; Richard Knights, Calgary; John Wilson, Jr., Innisfail; E. J. Reid, Cremona; A. M. Olson, Airdrie; R. Hogarth, Cochrane. Peter Massie, Midnapore, and B. H. A. McDonald, Champion.

Meetings of the directors of the Alberta Horse Breeders' Association and the Alberta Cattle Breeders' Association were also held.

Armistice Day Letters

Two Million Letters Sent To America From France

La Havre, France.—Two million letters, the largest mailing ever sent from France, have started to America on the French steamer Rochambeau. They are timed for delivery to American women about Armistice Day.

These letters, although advertising matter, have been turned to propaganda uses. They have been addressed by hand by French war widows and are sealed. The idea is that American women getting a letter from France on Armistice Day will think of the country where many sent their sons or husbands to war.

Heavy Mail By Zeppelin

Washington.—The Graf Zeppelin carried 101,683 pieces of mail back to Germany, for which the German postal administration will be credited with \$75,713 by the United States postal service. The mail, weighing about one ton, consisted of 49,745 letters and 51,988 postcards.

Princess Mary and Lord Lascelles are shown above at the doorway of their Fortunella castle, in Ireland, where they were accorded a royal welcome upon their recent visit. Shortly before their arrival the stables of the castle were set afire, apparently by a fanatic, but Lord Lascelles requested that no punishment be meted out to the culprit.

E.J.C. GOODER, Editor & Manager.

ARE YOU TENSE?

This is an age of rush. Most of us live rapidly and in a state of tension. The age seems to call for it. But it is well to stop and ask ourselves, is it worth while? It does not pay to lose our poise. We become irritable and, consequently inefficient when our nerves are stretched taut, and our whole beings are strung up to the highest pitch. In this tense condition we become quite unable to give nature consideration to problems or to arrive at wise decisions. Our work suffers, our health suffers, and if we are employers our help suffers, which in turn reacts against ourselves.

Learn to relax. Five minutes rest, quietly sitting with closed eyes, with the body resting loosely in the chair will work wonders. Better still, if it be possible, five minutes stretched out on one's back will put us back again into harmony with life and remove the strain we suffer from. There was great virtue in the "forty winks" that father and mother used to take after the mid-day meal when we were youngsters, and we all had to keep quiet for fear of waking them up. They relaxed. Indeed, they could not have done the hard day's work they did in those days, when labor-saving appliances were unknown, had they not had that little time for relaxing.

Are you tense? Well, stop being that way. You make yourself a nuisance to all around you. You slow up the procession. You cause more people to swear at you than will ever swear by you. You go to hate yourself, which is not a nice thing to do. What is worse, you defeat the very object you have in mind in becoming tense. The job you have in hand and about which you have allowed the tension to seize upon you, gets bungled by your very tenseness. Your faculties get impaired, because you must have harmony in mind and body to accomplish things. You are not able to look at questions impartially but see all things with distorted vision.

Relax. We say it again. Do it often, especially on your bad days, as you may call them. Look on all days as good days. Whatever happens to you cannot hurt you unless you allow it to hurt you. If you are overcrowded with things to do, take them one at a time. If you allow tension to grip you, then you will want to do everything at once. Relax. Let the less important things wait. Eye strain, nerve strain, temper strain they are all derived from the one source; your giving way to worry, anxiety, haste. The Old Book says: "He that believeth shall not make haste." We might say that he that believeth in doing a good day's work properly shall not get tense.

TALK ABOUT WHAT YOU WANT

What a mistake people make in talking about the things they don't want instead of the things they do want. For instance, nobody wants to be sick but nearly everybody, every day, talk about sickness. It's "how are you, Smith?" or "I hope you're keeping well, Mrs. Brown." Or, "A lot of sickness about, isn't there?" And so it goes on, talk, talk, everlasting, never-ending, talk about disease. Once two average people start talking about their ailments, real or imaginary, there's no end to it, until one or both make up their

ninds to go home and be real sick. Now, nobody wants to be sick, so why talk about it? Talk about what you want, not about what you don't want. You want health, don't you? Then talk about health, not about illness. Be positive, not negative, see yourself as well and healthy and claim the natural condition of the body, health, for yourself and your friends, and you and they will get health. We get what we "speak the word" for. It's the same about poverty and prosperity. Yet notice how people will talk about business being bad, times hard, collections poor, employment scarce, and so on. The first question when two men meet is usually, "How's business?" Why not take it for granted that business is good? Business usually is good. You want to be prosperous, don't you? Well, talk prosperity: don't talk poverty.

Many a man plans for a prosperous business but acts as if his business is going into the receiver's hands. Act as if you are prosperous, talk prosperity, live it, see it coming to you, and it will come. If you expect to fail, you'll fail; but if you expect to succeed, you'll get there. But don't talk about failure if you don't want failure; talk about success, the thing you want, not the thing you don't want. The same about happiness; don't talk about misery and woe, if it's happiness you want. Talk about happiness, look happy, expect happiness, give happiness and you'll get happiness. For the law is that we get what we give, only we get it back in better measure, "pressed down, running over." Talk about what you

Worth Considering

Three concrete examples where lack of the weekly paper costs farmers of the district money are cited by the Western Enterprise. One lost the time and expense of a trip to a district office to meet an inspector who had advertised his itinerary for other dates. Another farmer lost \$20 by a stray animal from his farm being sold at the pound after the statutory advertising in the local paper. A third lost two cents a bushel on thousands of bushels of grain because he did not read that the Wheat Pool would pay a patronage bonus on all carlots consigned to Pool terminals instead of line company terminals. The moral was obvious. "Read the home town paper."

THE RED CROSS CREED

It is the proud boast of the Red Cross Society that it is a purely voluntary organization, without any political, racial, or religious complexion whatsoever. Its members are men, women, and children of every village, city and countryside who have one grand creed to which they give their loyal allegiance.

This is the world-wide belief that wherever suffering and ill-health be found, from any cause whatsoever, there is the bounden duty of Red Cross, collectively or individually, to alleviate it.

The simplicity of this faith is not always apparent in a world that hurries on, too pressed with its own affairs to see the suffering child by the way-side, robbed of his birthright of health and strength. The world all too frequently "passes by on the other side," and leaves the sufferer to his misery.

Not so the Red Cross Society. Theirs is the order of the kind deed, the pledge of the friendly hand. Not enough to stop and see, the Red Cross of today, like the Good Samaritan of old, has work to do where suffering is concerned. The ass in the immortal tale of the way to Jericho has its counterpart today in the motor ambulance that smoothly and carefully takes the patient en route to his destination.

The inn of Scripture finds itself today represented by two beautiful houses of healing in Calgary and Edmonton, known as the Junior Red Cross Hospitals.

The twopence paid by the friendly neighbor for the care of the sick Jew in the story translates itself in 1928 into memberships or donations to the Red Cross Society.

Finally, the central figure of the drama, the man whose name will go down the ages as a sweet savor of human compassion, the good Samaritan of Christ's parable, surely he and she are with us today in the great, warm-hearted public to whom the Red Cross addresses itself in its earnest appeal to be allowed to carry on the

ITEMS OF INTEREST

Thursday last was Canada Day at the British Empire Trade Exhibition held at Cardiff, Wales. It is estimated a crowd of 1000 persons listened to an address by Hon. James Malcolm, the Canadian minister of trade and commerce. Mr. Malcolm spoke into the microphone at Ottawa and every word was carried by an intricate hook-up of land wires and wireless from Ottawa via New York to Rocky Point, L.I., thence to Cupar, Fifeshire, Scotland, and finally to Cardiff. It is estimated that the cost of transmitting the speech amounted to \$175 a minute.

Habitual liars have entered upon their annual rest. The fishing season closed a few weeks ago.

It cost nineteen Edmonton motorists between \$17 and \$18 each for speeding through the newly gravelled main street of Leduc two weeks ago Sunday.

Manitoba issued 1700 old age pension cheques at the end of last month. The pensions are at the rate of \$20 a month. There are still nearly 2000 claims for pensions to be investigated.

Mr. C. Yule of Carstairs has purchased and brought over some fine Shorthorn cattle from Scotland. They will offer for sale to cattlemen 18 bulls and 17 females of the famous old Scottish herds.

Direct telephone communication between Edmonton and Vancouver has been established over an all-Canadian route. Heretofore the only telephone communication between points in Alberta and the Coast cities has been via Washington state.

Extension of the areas of municipalities throughout the province to make them similar in size with the counties in other provinces, was a possible step now being considered by the Government, declared Premier J. E. Brownlee, when addressing the Board of Trade at a luncheon at Lacombe a few weeks ago. The problems of education and roads were forcing the government to consider increasing the size of the municipal areas, he said in declaring this action was being contemplated. The small municipalities could not finance their needs in roads and education, and some action had to be taken to protect them. Through extension of the boundaries, to incorporate a larger unit, a means of relief might be found.

GLIMPSES FROM THE PAST

20 YEARS AGO

Elson Shantz threshed over 645 bushels of oats in one hour and 40 minutes at Geo. Metz's farm on Monday. The yield of this crop of oats was 2,850 bu. off 40 acres, a little over 71 bu. to the acre.

A. Burley of Calgary has taken a position with E.B. Shantz, the harness maker.

15 YEARS AGO

Miss Eva Sexsmith spent the week end in Red Deer visiting friends.

M. Ryckman and J. A. McGhee left on Friday last for the foothills in the west country in search of big game.

Married—On Wednesday, Nov. 5, 1913 at the home of the bride's parents, Miss Marie Louise Mack, to Mr. Chas W. Franklin, both of Didsbury.

The estimate of the grain crop for Alberta for 1913 is: wheat 24,540,000 bu., oats 44,345,000 bu., barley 11,310,000 bu. Most of the wheat graded No. 1 hard.

10 YEARS AGO

Alymer Liesemer, son of Mr. J. Liesemer, received recently the Governor-General's bronze medal for the best standing passing Grade VIII into high school in the Olds inspectorate.

Stop Press Flash — Thursday, November 7.—An unconfirmed report from London has reached Calgary that Germany has agreed to unconditional surrender. This report should not be accepted as fact until official word has been received.

Canada Forges Ahead

"Canada is today no longer standing on the threshold of opportunity. She has stepped across that threshold and is proceeding swiftly along the corridors of tremendous economic development. Her progress is already attracting the attention of the rest of the world," said Creighton J. Hill, of the Babbson Statistical Organization, in an address given recently in Ottawa.

A very pleasant evening was spent at the home of Mr. and Mrs. Dan Dippel by a number of live wires of the neighborhood, on Friday Nov. 2nd, in the way of a surprise party in honor of Mr. Albert Stephenson, who is leaving for his home in Prince Rupert, B.C. A dainty lunch was served at midnight. After singing For he's a jolly good fellow, and wishing Albert a safe journey and a speedy return all departed for home.—Contributed.

More reading matter in a week than any other Canadian farm paper in a month—the Family Herald and Weekly Star, Montreal. Only a dollar a year, or three years for \$2, now making wonderful improvements.

It is expected that 80,000,000 bushels of grain will be shipped from the port of Vancouver, B.C., by the end of July, when the current crop year terminates.

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones—the health of the baby is most jealously guarded and the mother is always on the lookout for a remedy which is efficient and at the same time absolutely safe. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who says:—"I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Explanations and Comments

A Call To Consecration For Service, verses 1 and 2.—The meaning of these two long verses has been aptly expressed in these brief words:

In view of all that God has done for us, we should henceforth live for him.

The One Volume Commentary para-

phrases the verses thus: God's re-

deeming love should be answered by

the true sacrifice and spiritual, ritual

service of a life of purity and self-

denial and work for God. Do not

follow the fashion and customs of the

worldly society around you, but let

your ways of thinking be so changed

by the Holy Spirit that you look for

and recognize God's will and love to

do it.

"Present your bodies a living sacri-

fice, holy, acceptable to God."

"No maimed or crippled thing

might be offered to God by the Jew-

ish law. If we would devote ourselves

to God, we must see to it that we

have a self to devote. Self-consecra-

tion is not a negative thing; it is a

very positive thing. Even our Lord

said in His high-priestly prayer: 'For

their sakes I consecrate Myself.'

Self-consecration is the most effectual way

in which we can serve God in our

generation. That is the way in

which the torch has been handed

down by a long succession of runners

since the Gospel of Christ came into

the world. Ask yourselves how you

have been helped by others. You

will find, I think, that the occasions

have been most trivial, that the words

spoken and the things done have been

slight and unpremeditated. They

have been sidelights upon the person's

character, peeps into the inner life of

one whose mind is kept in perfect

peace because it rests on God; of one

who sees God because his heart is

pure. It is the sudden sting of self-

reproach, the shame of the contrast,

the longing to be like such a one,

that sends a man to his knees as soon

as he is alone. Sometimes when

such a man or woman dies we learn

for the first time, not without sur-

many. Such persons have laid up a

rich store of gratitude for being what

God has helped them to be."—R. W.

Inge.

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuralgia, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

**Physicians prescribe Aspirin;
it does NOT affect the heart**

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

CHAPTER V.—Continued.

"Can I cook?" repeated Andy. "I asks me can I cook! That's me first name; that's me profession. I've cooked on sailing ships, steamboats, in camps; in the Army, an' I did thirty days in Sydney jail, and blime me if they didn't make me 'ead cook. I was so good they wanted me to stay."

"You're hired, Andy," said Douglas decidedly. "But isn't it going to be pretty tough to quit the boxing game for cooking?"

"Seein' as you 'ave asked me I'll say that it's a blinkin' sight better than quittin' it for tiddley-winks!"

Douglas came to his feet. "I want you to meet Dad, Donald, and we'll find out when we are to start."

Andy patted his stomach contemplatively. "Well, with this 'ere champagne under me belt, I think I'll start in 'ere and 'ave a drink and a fight in every bar from 'ere to Cordova Street. About meetin' you Donald," he added scratching his head reflectively, "the way I feel right now I think by tomorrow morning you'll find me in the bridal-chamber of the Vancouver Hotel." Saying which, with straightened shoulders, his head set at a characteristic angle, he swaggered down the street and with a wave of his hand disappeared within the swinging doors of the first saloon. In his present mood Andy envied no millionaire.

"You'll like Dad," said Douglas, as they ran up the steps of the big office building. "He's rather severe looking and pretty straight-laced, but the face he wears in the office isn't the face he wears at home." He finished with a laugh.

Robert Rennie was the sole owner of the Rennie Construction and Logging Company, one of the largest organizations of its kind on the Coast. He now rose from his chair and came around the desk, all the while studying Donald's face, which bore unmistakable traces of the afternoon's fight.

"Dad, this is Donald McLean, whom I told you about last night. I don't want to take up much of your time; just wanted you to meet Donald and find out when we can start on the trip to the mountains."

"Now that Gillis is here to go with

you, you can go any time; the sooner the better, as we expect to have the railroad to the summit in a few weeks," responded his father, his eyes still on Donald.

"Thanks, Dad," said Douglas. "We can be ready tomorrow and leave the next day."

"Douglas, will you please go to Bowser's office and get some papers he promised to have ready today?" asked Robert Rennie.

Douglas moved toward the door with Douglas.

"Sit down, Mr. McLean, and wait until Douglas comes back," invited Robert Rennie politely, as he pushed a chair toward Donald. He then closed the door of the outer office, where a girl sat pounding a typewriter.

When the older man turned his face was set in a broad smile and he crossed the room to seize the hand of his astonished visitor in a hearty grip. "Man! man!" he exclaimed, as he pumped Donald's hand vigorously, "that was a great fight today! When you got Garneau with your left in the second round and that d—gong rang, I—I—heavens, but I was excited!" He was gazing at Donald with admiration glowing in his eyes.

"You—you were there!" gasped Donald.

Robert Rennie chuckled. "Top row nigger heaven! When that brute fouled you I think I could have shot him!"

"Mr. Rennie, I'm not a professional fighter, I—I—"

"Tut tut!" interrupted the enthusiastic fan, "I can see that. By gad! that last round was a whirlwind. That right you landed on his jaw—I got so excited that I fell down between the seats and skinned my shins." He rubbed his leg ruefully. "I never saw such speed as you showed in that last"

Here footsteps sounded outside. Robert Rennie moved quickly to his chair, adjusted his glasses and assumed a serious expression. "Not a word to Doug," he whispered.

Bowser says that he told you he'd have the papers tomorrow," informed Douglas.

"Very well," answered his father.

Douglas turned as he was leaving the room and saw Robert Rennie close one eye in a wise wink.

CHAPTER VI.

At the breakfast table next morning Douglas was talking happily of their departure for Summit Lake.

"You'll have to hustle the work of timber cruising," his father admonished. "There won't be any time for play, as we expect to have the road finished in a few weeks."

"Don't worry, Dad. This is my first real job, and I am going to make good," declared Douglas stoutly.

"I hope so, Douglas. As you know, I want you to work your way up on your own merits. I'm not going to show any favouritism. We are going to put in a larger mill at Cheakamus, and one at Summit Lake, so there will be good opportunities for advancement for you and McLean if you noted the right spirit."

"Is Mr. McLean going with you?" interposed Janet in a casual tone.

"Yes."

"How can he leave his business for so long?"

"He's not actively engaged in business just at present," explained Douglas glibly.

"You might ask him out to dinner tonight. I am having a few friends in for the evening."

"You bet I will."

Douglas accepted Janet's invitation with alacrity. Living within four walls of a room and eating in restaurants had long since palled on his taste.

"Formal or informal?" he asked.

Douglas made a deprecatory gesture. "Formal, very formal. You don't know Janet or you wouldn't ask

that question. My sister is a stickler for ceremony. How are you off for 'soup and fish'?"

"I have the necessaries," smiled Donald.

Donald spent more than the usual time in dressing. He stood before the small mirror and surveyed himself with a critical eye. "Pretty soft for you," he apostrophized himself, "eating in ten-cent restaurants one day and dining in a millionaire's home the next, and on the invitation of the most beautiful girl you have ever met."

Douglas called for him with his car and whisked him to the palatial Rennie residence on Shaughnessy Heights. The imposing evidence of wealth was written in bold headlines on the whole street of beautiful homes.

Mrs. Rennie met them at the door and greeted Donald warmly. He could not repress a start as he noted her likeness to Janet, and when she spoke her voice held the same deep tone as her daughter's. She led him to a large room flanked by two enormous bays that looked out on the Avenue. There was a spaciousness in all the rooms, a rare combination of beauty and good taste in the furnishings, that were luxurious without being ornate. Robert Rennie came forward and gave him a cheery welcome. Donald heard Janet's voice behind him and turned to gaze on a vision of loveliness.

Janet had dressed for the occasion with unusual care. A dark red evening gown of a filmy material showed to advantage the delicate contour of her form and the graceful curve of her snow-white shoulders and neck. Her lovely hair was wound in shining coils and held with a comb that sparkled with small but brilliant diamonds. Her long dark lashes drooped, and she flushed slightly as she met Donald's look of undisguised admiration.

Mrs. Rennie was an excellent hostess. Her cultured and charming personality put Donald quite at ease. It seemed ages since he had worn a dress-suit and been entertained in a home of luxury and refinement. After the coarse fare of noisy restaurants which had been his, the excellent food, the rich linen, the home-like atmosphere and the subdued voices now gave him a pleasant thrill.

The conversation during dinner was on various subjects. At times it swung perilously near to matters pertaining to Donald's personal affairs. On such occasions Douglas adroitly shifted it to other channels.

Janet studied Donald covertly. His perfect poise, his air of refinement and his evident lack of self-consciousness impressed her. "He is cultured and well-bred," she thought as she noted his well-shaped head, his powerful shoulders and his clean-cut profile.

Near the finish of dinner, while waiting for coffee to be served, there came a lull in the conversation which was finally broken by Janet. "Doug tells me that you are engaged in the glove business, Mr. McLean," she stated.

Douglas shot a quick glance at Douglas, but his friend's face was hidden in his handkerchief to smother a sudden attack of coughing. In spite of Donald's great effort at self-control, he felt a warm flush rise in his cheeks. What had Douglas divulged? Did his sister know of his participation in a boxing-match? He looked at Douglas appealingly. It

was the last of the Great West," continued Mr. Rennie. "With nearly four hundred thousand miles of territory, a coast line seven thousand miles in length, our population for the entire Province is less than one of the Coast cities to the south of us. Here in this vast untouched hinterland," swinging his arm to the north and east, "lies a potential wealth that will support millions, a wealth that is awaiting the magic touch of capital and settlers—capital to provide railways; farmers to till the rich valley; miners to unlock the vast hoards of gold and copper; and loggers to fell the virgin forests. Some day—and that day is not far distant—all this will come to pass, and you young folks will see a railroad from Vancouver to the Behring Sea." The speaker's face was flushed and his eyes were glowing. "Who knows," he finished dreamily, "but what the railroad I am building will be a link in the Alaskan road of the future?"

"Here is a family," thought Donald, "all native born, who have a deep and abiding faith in the destiny of the land of their birth."

Addressing Mr. Rennie, he said: "If the love that you and yours have for this Province is typical of the average citizen, I see no need to fear for the future of your country."

Poultry Show Calgary December 4 to 7

The prize list for the Alberta Provincial Poultry Show, which is to be held at Calgary December 4th to 7th, 1928, is now ready for distribution, and copies may be had by request from the Secretary, Calgary Poultry and Pet Stock Association, Exhibition offices, Calgary.

In addition to generous cash prizes for all varieties of poultry, turkeys, geese, ducks, bantams, and pigeons, there are several pages of special prizes and challenge trophies to be competed for.

Besides the open classes in all the recognized breeds, there are sections for production classes and novice classes, and these carry the same liberal cash awards as the open classes.

Then there are divisions for eggs and for dressed poultry. The dressed poultry display is always a big attraction, and when the exhibits in this department are auctioned on Wednesday evening, there will be spirited bidding and fine prices realized.

Prospective exhibitors would do well to procure a copy of the prize list early and study its contents.

Mr. N. Lamme was a visitor to Calgary on Friday.

Remunerative Gravel

On Saturday last, our local druggist was fined ten dollars and costs for speeding through Leduc. His sworn statement to the magistrate, that his speed was only eighteen miles per hour bore no fruit, as the local by-law called for maximum of fifteen miles. Since then another local townsman has been summoned for speeding in Leduc. He, having heard of his fellow-townsman's trouble, swears he simply crawled through the town. An ordinary funeral procession travels at 20 to 25 miles an hour, so that the Village fathers in Leduc must have been buried ages ago. The town reaped over \$200.00 in fines on Monday, and another batch on Saturday. Their gravel must be well paid for by this time.—Mannville News.

To the little town of Vulcan, in Southern Alberta, belongs the distinction of receiving more bushels of grain direct from the farmers' wagons and trucks than any other point in the British Empire, if not in the world. There are nine local elevators, seven of which are of double capacity. Last year Vulcan shipped two and a quarter million bushels of grain, and with even greater crops in the district this year the indications are that the town will break its own record.
